

Mouse anti-EBOV GP VP40 mAb (5B12)

Catalog #: 0201-017

Description:

Protein G purified mouse monoclonal antibody reactive to EBOV VP40. The antibody detects VP40 in virus-like particles (VLP) and recombinant protein.

Immunogen/ Target:

Purified recombinant Ebola virus VP40 (EBOV rVP40) produced in *E. coli*.

Formulation & Storage: Supplied in PBS in frozen format with no preservatives added. Store at +4°C for 2-3 weeks; -80°C for long-term

Notes & Usage Guidelines:

Clonality/Isotype: Monoclonal; IgG2b

Host: Mouse

ELISA: Assay-dependent dilution

WB: Assay-dependent dilution

Applications

Western Blot Data:

Western blots were detected under reduced conditions with anti-EBOV VP40 mAb 5B12 at 10 ng/mL and visualized using an anti-mouse IgG-HRP conjugate and TMB membrane substrate. rVP40 was loaded at 100 ng per lane. EBOV rVP40 is visualized in lane 2. VLP was loaded at 1 µg per lane. VP40 is detected in EBOV VLP in lane 5.

ELISA Data:

rVP40 proteins and VLPs were diluted to 1 and 10 µg/mL, respectively in PBS for plate coating. Anti-EBOV VP40 antibody 5B12 was serially diluted semi-log dilutions from 10 µg/mL and incubated on the coated plates. Washed plates were detected with anti-mouse IgG-HRP conjugate and TMB substrate. OD₆₅₀ is reported below.

5B12 µg/mL	rVP40 (1 µg/mL)			VLP (10 µg/mL)
