

## Anti-Baculovirus GP64 Antibody

Catalog #: 0222-PP-001

### Description:

Baculovirus gp64-specific mouse monoclonal antibody. This monoclonal antibody reacts with baculovirus structural protein, gp64.

### Immunogen/ Target:

Recombinant baculovirus concentrated Sf9 cultured supernatant.

**Formulation & Storage:** Store at +4°C for stable

### Notes & Usage Guidelines:

**Clonality/Isotype:** monoclonal / IgG1, Kappa

**Host:** Mouse

**ELISA:** Not Recommended

**WB:** Assay-dependent dilution

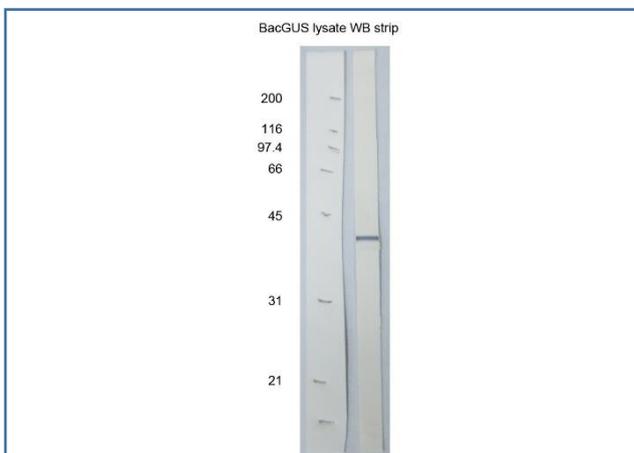

## Applications

### Western Blot Data:

This monoclonal antibody has been primarily used for the detection of baculovirus gp64 in western blot (under reducing and denaturing conditions).

### ELISA Data:

N/A

### Certificate of analysis:

A hardcopy of datasheet is sent along with the products. Please refer to it for detailed information. For older lots, refer to the applicable certificate of analysis that may be requested at [services@ibtbioservices.com](mailto:services@ibtbioservices.com)

### Related Products:

IBT provides a wide array of antibodies, recombinant proteins, and other infectious disease reagents. Please see our website, [www.ibtbioservices.com](http://www.ibtbioservices.com) for more details.

**Intended for research use only, not for human, therapeutic, or diagnostic applications.**
