

Anti-Dengue Virus Serotype 4 Antibody, DE19.

Catalog #: 0223-PP-019

Description:

DENV serotype 4 E glycoprotein specific mouse monoclonal antibody. This monoclonal antibody reacts with a conformational epitope present on DENV4 E.

Immunogen/ Target:

Recombinant DENV E protein.

Formulation & Storage: Store at +4°C for stable

Notes & Usage Guidelines:

Clonality/Isotype: monoclonal / IgG1, Kappa.

Host: Mouse

ELISA:

WB:

Applications

This monoclonal antibody has been primarily used for the detection of DENV4 antigen in an antigen capture ELISA. This monoclonal antibody is not suitable for western blot (non-reducing unheated conditions). Does not work very well in FRNT.

Assay steps :

Anti-mouse Ig coated well

Blocked with BSA

Monoclonal antibody

Antigen sample

Polyclonal anti-flavivirus antibody

Conjugate

Substrate

Certificate of analysis:

A hardcopy of datasheet is sent along with the products. Please refer to it for detailed information. For older lots, refer to the applicable certificate of analysis that may be requested at services@ibtbioservices.com
